

STATUTORY FINANCIAL COMPLIANCE & AUDIT SPEC

Document: financial-compliance.pdf | Page 1

SECTION 1: STATUTORY AUDIT & DATA RETENTION

REQ-101: The system must log every state-changing API request and monetary transfer in an append-only audit ledger.

REQ-102: All ledger entries must record user identity, IP address, timestamp, and cryptographic signatures.

REQ-103: In accordance with statutory banking regulations and financial anti-fraud requirements, all financial transactions, customer transaction histories, payment invoices, and monetary audit logs must be permanently retained for a minimum mandatory period of seven years.

REQ-104: Under no circumstances may transaction history records, customer ledger references, or financial audit trails be deleted, purged, or truncated prior to the expiration of the statutory seven-year retention window.
